Multi-utility

Experienced and skilled multi-utility self lay organisation accredited to undertake all gas, water and electric services for all commercial and residential developers. We pride ourselves on efficiency; handling all connections at the same time, helping you save time, hassle and money.

Gas Connections

We're certified for all types of gas connections from domestic property to an entire development site. Our skilled team are experienced installing all types of gas pipes from low to medium pressure.

Water connections

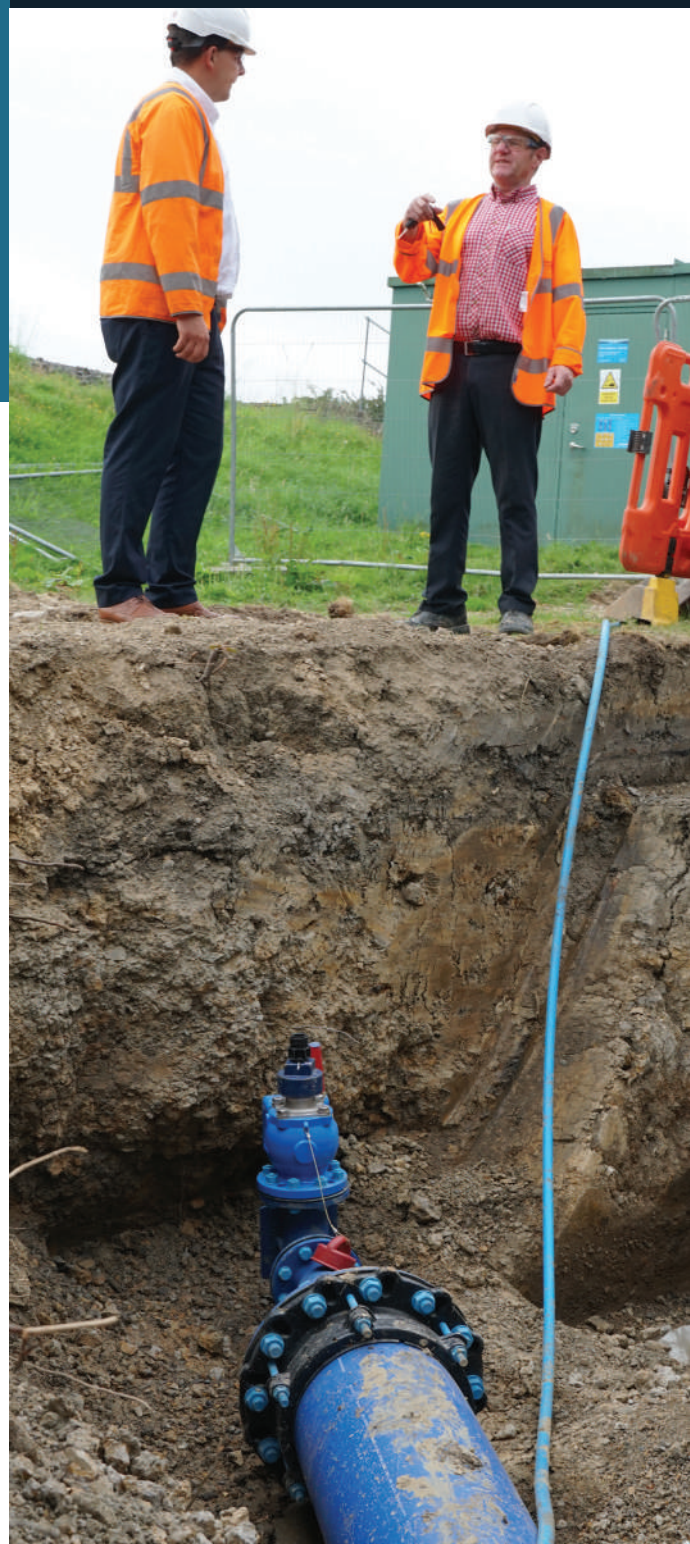

We are a self lay company accredited to undertake water connections by the Water Industry Registration Scheme (WIRS), operated by Lloyds Register on behalf of water utility companies.

Electric & Telecoms

Our teams have experience working with and laying cables from domestic services to high voltage of 33kv.

Reinstatement

We have a wide range reinstatement teams with all grab wagons, hot box teams and hot and cold lay teams.

24/7 call out

We are available for call out 24 hours a day, 365 day of the year. For emergencies, call us now.

Testimonials

“Everyone at Prospect House has been very happy with the team carrying out the work - they were charming, lovely & polite lads who have been amazing and she wishes all teams could be like them.”

“Luke and all the team have worked so hard in awful weather conditions I admire everything the team has done.”

Customer feedback from Yorkshire Water

“Having worked with L. J. Heffernan Utilities Ltd over a number of years I have always found them to be extremely hard working. They are able to offer an end to end process from excavation to reinstatement of a scheme. I have worked on some very complex and challenging schemes (receiving praise) with L.J. Heffernan Utilities Ltd with one particular scheme standing out in my mind. This scheme involved the installation of a 400mm Carbon Steel Main with the existing main operating at 19 bar. The challenges on this scheme were significant including working with two Principle Contractors, a Client who was behind on their programme, crane being used for lifting operations due to the tight working area and weight of materials, other contractors on a very congested site and shift patterns. The scheme was delivered through great communication and flexibility. Luke and his team played a pivotal part in the delivery of this scheme amongst other’s L.J. Heffernan Utilities have delivered for me over the years.”

Vincent Durkan, Project Manager at Morrison Utility Services

“Great job”
